Ms. Ann Baker
Raggedy Ann Cattery
156 Iowa Avenue
Riverside, CA 92507

Dear Ms. Baker:

We examined one Ragdoll cat in early 1973, and on study of the cat's chromosomes, x-rays of the skull and spine, and gross autopsy examination we found no significant abnormalities.

Most sincerely yours,

A handwritten signature in cursive script, appearing to read "W. Centerwall".

Willard R. Centerwall, M.D., M.S., M.P.H.
Professor of Pediatrics and Public Health
Director of the Genetics, Birth Defects &
Chromosome Services

P.S. I made the above statement brief enough so that if you wish to refer to it, it should be quoted in its full context.

Best wishes to you for a happy new year.
