Ms. Ann Baker
Raggedy Ann Cattery
156 Iowa Avenue
Riverside, CA 92507

Dear Ms. Baker:

Thank you for your information regarding the research you have carried out on the ragdoll cats.

I would be happy sometime to work out some sort of research plan which might help you to document the observations you have made thus far and perhaps support some of your conclusions. We haven't the time ourselves to participate in the research, but once the design is set, you or someone else could perhaps carry out the actual studies.

How is your ragdoll cattery thriving?

Best wishes to you for a good New Year.

Most cordially yours,

Willard R. Centerwall, M.D., M.S., M.P.H.
Professor of Pediatrics & Public Health
Director of the Genetics, Birth Defects &
Chromosome Services
